PROFILE

Enthusiastic and detail-oriented student with a passion for crafting seamless and visually appealing user experiences. Eager to contribute my skills in frontend development to a dynamic team and leverage my academic background in Computer Engineering . Proficient in HTML, CSS, and JavaScript, with hands-on experience in ReactJs. Seeking a challenging software development role where I can apply my skills to create intuitive and responsive user interfaces while contributing to the success of innovative projects.

WORK EXPERIENCE: NONE

CERTIFICATIONS

:Frontend developer

- Proven expertise in building responsive and visually appealing web applications using HTML, CSS, and JavaScript.
- Proficient in ReactJS, demonstrating hands-on experience in crafting dynamic and interactive user interfaces.
- Adept at state management in React, ensuring efficient data flow and seamless user experiences.
- Strong understanding of modern web development practices, including component-based architecture, RESTful APIs, and asynchronous programming.
- Implemented efficient and maintainable code practices, contributing to the scalability and performance of web applications.
- Experience in debugging and troubleshooting, with a keen eye for identifying and resolving frontend issues promptly.
- Kept abreast of industry trends and emerging technologies, ensuring the adoption of best practices and innovative solutions.
- Contributed to the successful integration of third-party APIs, enhancing application functionality and user experience.
- Enthusiastic about user-centric design, ensuring that every project aligns with the principles of accessibility and usability.
- Actively participated in code reviews, fostering a collaborative and constructive team environment.
- Demonstrated the ability to adapt quickly to evolving project requirements and tight deadlines.
- Committed to continuous learning and professional development, attending relevant workshops and staying updated on the latest frontend technologies.
